

CBF CAJUN QUEEN OF HEARTS

Date of Birth: 03/28/2021
Registration 1: CI331441

Courtesy of Justin Rombeck

"Queenie" has always possessed a lot of eye appeal. Her horns should be around 60" TTT at 24 months. A wonderful feat to only be outmatched by the depth of pedigree. Several Legends in her pedigree include WS Jamakizm, Texana Garland Gal, Tejas Star, ECR Eternal Tari, and Field of Pearls. We will be AI'ing her to Rebel HR for a fall 2023 calf
